

TRANSLATIONAL HEALTH SCIENCE AND TECHNOLOGY INSTITUTE

(An Autonomous Institute of the Department of Biotechnology, Govt. of India)

496, Udyog Vihar Phase III, Gurgaon- 122 016

PEDIATRIC BIOLOGY CENTRE

Walk-in interview for project positions

TRANSLATIONAL HEALTH SCIENCE AND TECHNOLOGY INSTITUTE (THSTI) is an autonomous Institute of the Department of Biotechnology under the Ministry of Science and Technology, Govt. of India. THSTI has been developed as a part of the interdisciplinary Health biotech Science cluster to be located at Faridabad which is a part of the National Capital Region. THSTI is designed to be a dynamic and interactive organization with a mission to conduct innovative translational research and develop research collaborations across disciplines and professions to accelerate the development of concepts into tangible products to improve human health. The other members of the cluster include The Regional Centre of Biotechnology (RCB) under the aegis of UNESCO and the NII with which the THSTI will have a seamless collaboration to achieve the interdisciplinary expertise. The cluster will have access to the state of the art experimental animal facility and the platform technology center for the sophisticated instrumentation. The permanent laboratories of the centre will come up in Faridabad within 3 years. The interim laboratories of the centre are functioning from Gurgaon in the South of Delhi area with adequate housing, transportation and schooling facilities. Campus housing may be available when the centre moves to Faridabad.

Pediatric Biology Center (PBC) conducts hypothesis driven research on the biological basis of childhood health and diseases. The generated knowledge will be incorporated in THSTI institutional networks developing diagnostic and therapeutic modalities. Such an interdisciplinary effort will need to knit together expertise from the fields of pediatrics, infectious disease, microbiology, immunology, cell and molecular biology, systems biology, imaging studies, clinical trials, biostatistics and epidemiology, among others. THSTI is looking for highly motivated individuals with expertise in these relevant areas with interests in the child biology domain.
