

Recruitment notice no.: THS-C/RN/15/2024

Dated: 05th July 2024

- 1. BRIC-Translational Health Science and Technology Institute (THSTI) is an autonomous Institute of the Department of Biotechnology, Ministry of Science and Technology, Govt. of India. The institute is an integral part of the interdisciplinary NCR Biotech Science Cluster located at Faridabad, and is designed as a dynamic, interactive organization with the mission to conduct innovative translational research and to develop research collaborations across disciplines and professions to translate concepts into products to improve human health.
- 2. BRIC-THSTI has built several inter-institutional collaborations and connectivity with industry supported by well-trained teams of research and laboratory staff. This foundation has helped pursuit of thematic research programmes which can be broadly categorized as, (a) Infectious diseases and Immunology (b) Maternal and Child Health, (c) non-communicable disease (d) Multidisciplinary clinical and translational research. These will be strengthened by four core facilities viz. Small Animal Facility, Data Management Centre, Biorepository and Bioassay Laboratory that will serve not only the research programmes of THSTI, but also the National Capital Region Biotech Science Cluster and other academic and industrial partners.
- 3. This recruitment is to fill up the vacancies under the project entitled "Sepsis-related mortality in neonates in India: A multi-disciplinary, multi-institutional research program for context-specific solutions" for project positions at Clinical Development Services Agency (CDSA) center. CDSA is a niche center of THSTI established to facilitate the development of affordable healthcare products for public health diseases. It is the only public Centre in the country created with a mandate to support and nurture cost-effective, high quality, not-for-profit technology-based preclinical and clinical product development as well as support clinical research conducted by public agencies. It works towards development of an eco-system for training and learning and work with public sector institutions, and small and medium enterprises (SME) to translate innovative technologies into medical products for public good.

The main objectives of CDSA are:

- a) As an academic Clinical Research Unit, to undertake & provide end -to- end clinical study support for investigators and SMEs in study planning, set up, conduct: project management, monitoring, data management, safety reporting, analysis and report writing
- b) Build research capacity and capability through high quality training in the area of clinical development/trials and regulation
- c) Support and strengthen clinical research environment in the country
- d) Regulatory science and policy support: provide tools and approaches to support researchers, regulators, health policy makers & industry

Applications are invited from eligible candidates to fill up the following positions under "Sepsis-related mortality in neonates in India: A multi-disciplinary, multi-institutional research program for context - specific solutions" DBT, CDSA-THSTI :

functioning of equipment at site. Maintain accurate records of lab study specific methods and processes Coordinate with the field worker for transport of the samples Pre-dominantly night shift B.Sc. in Medical Lab Technology Degree from recognized university OR Experience B.Sc. in Life Sciences or biological sciences from recognized university Experience Skills • Ability to gain trust and confidence with stakeholders. • Immediate processing and temporary storage of collected biospecime • Effective communication skills, the provision of timely and acconfidences • Understanding of GCP, GCLP, regulations and guidelines	Name of the post	Lab Technician, 2 Positions			
Duration 10 months Age 18-30 years Location • National Institute of Immunology, New Delhi Job profile The Lab Technician will be responsible: • Processing of samples received in the lab • Preparation of reports • Ensuring of lab supplies for study work • Maintenance of the equipment log, calibration logs, ensuring sr functioning of equipment at site. • Maintain accurate records of lab study specific methods and processes • Coordinate with the field worker for transport of the samples • Pre-dominantly night shift Qualifications and Experience Skills • Ability to gain trust and confidence with stakeholders. • Lifective communication skills, the provision of timely and acc information to stakeholders • Understanding of GCP, GCLP, regulations and guidelines	Consolidated salary	Rs 24,800
