BRIC-Translational Health Science and Technology Institute
(An Institute of the Biotechnology Research and Innovation Council, Govt. of India)
NCR Biotech Science Cluster, 3rd Milestone, Faridabad – Gurugram Expressway,
P.O. Box No. 04, Faridabad – 121001

RECRUITMENT NOTICE NO.: THS/RN/47/2024

Dated: 12th November 2024

RECRUITMENT NOTIFICATION

- BRIC-Translational Health Science and Technology Institute (THSTI) is an Institute of the Biotechnology Research and Innovation Council, Department of Biotechnology, Ministry of Science & Technology, Govt. of India. The institute is an integral part of the interdisciplinary NCR Biotech Science Cluster located at Faridabad, and is designed as a dynamic, interactive organization with the mission to conduct innovative translational research and to develop research collaborations across disciplines and professions to translate concepts into products to improve human health.
- BRIC-THSTI has built several inter-institutional collaborations and connectivity with industry supported by well-trained teams of research and laboratory staff. THSTI has established various centres namely (a) Centre for Maternal and Child Health, (b) Centre for Virus Research, Therapeutics and Vaccines (c) Centre for Tuberculosis Research (d) Centre for Microbial Research, (e) Centre for Immunobiology and Immunotherapy (f) Centre for Drug Discovery (g) Clinical Development Services Agency (h) Computational and Mathematical Biology Centre (i) Centre for Bio-design and Diagnostics. These centres are strengthened by many core facilities viz. Bioassay Laboratory, Biorepository, Biosafety Level -3 Lab, Data Management Centre, Immunology Core laboratory, Multi-Omics facility, Experimental Animal Facility, Vaccine design and Development facility, School of Innovation in Bio design etc. that serve as huge resources for the research programmes of THSTI and also the National Capital Region Biotech Science Cluster and other academic and industrial partners.
- This recruitment is to fill up the vacancies of BRIC-THSTI under the following projects:

Educational Qualification and Experience required for the post:

S. No.	Name of the Post/ No. of posts/ Monthly consolidated emoluments/ Age Limit	Essential & Desirable qualifications & Experience	Job description/ skills required
Project: Global Scales for Early Development (GSED) 2.0 - Development of population norms for early childhood development under 36 months			
PI : Dr. Nitya Wadhwa			
1.	Quality Manager One post Rs 70,000/- Age: 40 years	MBBS/ BDS or equivalent degree in clinical research with MPH. OR MBBS/ BDS/ or its equivalent from a recognized University with two (2) years' post-qualification experience in the field	Overall responsibilities are to ensure that the study is conducted in accordance with study protocol, standard operating procedures, good clinical practices, and applicable guidelines.

		<p>of Pediatrics/ Pediatric neurology/ clinical research.</p> <p>OR</p> <p>Master degree in Psychology/ Clinical Psychology from the recognized university with three (3) years of post-qualification experience in the clinical research focusing on development assessments in children.</p> <p>Desirable:</p> <ul style="list-style-type: none"> • Work experience in a clinical research. • Experience of working with pediatric population preferably pediatric neurology. • Understanding of GCP in clinical research. • Demonstrated ability to develop and implement monitoring plans, SOPs. • Computer skills including proficiency in use of Microsoft Office applications. • Effective communication skills, the provision of timely and accurate information to stakeholders. • Good organizational behavior and problem-solving skills. • Effective time management skills and ability to manage competing priorities. 	<p>He/she will be responsible for:</p> <ul style="list-style-type: none"> • Develop study monitoring plan and execution of same. • Update study related material such as clinical operations plan, SOPs, CRF completion guidelines, informed consent, study logs/forms and other study related documents. • Conduct process monitoring as per pre-defined and approved extent, frequency and criticality. • Supervise study implementation at site and QC activities. • Perform supervisory developmental assessments for standardization exercises. • Analyze results of standardization exercises and planning the initial and retraining sessions for the research study staff. • Conduct training and monitor study team performing of Neuro developmental assessment of infants. • Liason with the team to ensure good quality of study data. • Provide support to site team to prepare for clinical audits and conduct source document verification and review of case record forms / study proforma for QC. • Communicate with investigators at THSTI and site investigator for tracking patient recruitment and progress to study timelines; maintaining and reporting metrics for clinical site performance and quality assurance. • Prepare quality trending reports for submission to WHO central team. • Supervise the data management progress with data manager and the DM team • Work with coordinating PI to ensure that the study is meeting its targets, is producing meaningful output and to predict and plan any changes that warrant requests to changes in protocol, funding, or timelines; • Actively lead or assist activities in the areas of Internal Quality
